Mr. Mark Fosshage
World Water Works, Inc
4061 NW 3rd Street
Oklahoma City, OK 73107

Dear Mark:

World Water Works, WWW, has been a reliable company on the projects we have worked on. Their quality of equipment and dedication places them as one of the top firms I have worked with. The knowledge of their staff brought valuable suggestions to the projects that enhanced both the operations and performance of the system. WWW becomes a partner and stays involved even after the project has been completed.

Our relationship will continue in the future and I will always look forward to the next project with them.

Sincerely,

Robert Trader
Project Manager
