Happy New Year!

Dear All:

The staff of World Water Works hopes you enjoyed the Holidays and wishes you an exciting and successful New Year! WWW has also been **celebrating its 10th year anniversary** this month! We are all very grateful to all who have made our progress and success possible. It is in this spirit we say...**"Thank you!"**

We also wanted to take the opportunity to share some updates and our 2009 tradeshow schedule.

2009 Tradeshow Schedule

World Water Works will be exhibiting our wastewater treatment technologies at the following tradeshow in 2009:

1. [International Poultry Expo](#) (Atlanta, GA) (January 28-30) (Booth 4924)

We will be debuting two new exciting products at the show!!

2. [Food Processing Environmental Conference](#) (San Antonio, TX) (March 22-26)
3. [Process Expo](#) (Las Vegas, NV) (October 5-7) (Booth S6823)
4. [WEFTEC](#) (Orlando, FL) (October 12-14) (Booth 1451)
5. [Worldwide Food Expo](#) (Chicago, IL) (October 28-31) (Booth S4940)

SUCCESS in FISH FARMING

In December, WWW recently started up a Phase I pretreatment system in Ecuador at a Tilapia Fish Farm. The system consisted of an [Internal Rotary Screen](#) (IRS-4872) and a [Resource Dissolved Air Flotation](#) (ROP-17SW) System. The customer completed the high quality installation themselves. WWW's startup team arrived the second week of December. Although the final test results are not back yet from the lab; onsite findings show the influent TSS being reduced from over 2000 ppm to less than 50 ppm. The customer is pleased with WWW's technology and support and reports: ***"The system is operating very well."***

CUSTOMER LOYALTY

"Your company and equipment have been crucial to the operation of our plant, and I feel obligated to let others know how pleased I am with the equipment. I do this as thanks for past service and a good product. Thanks again to you and your entire staff."

Norman Robison, Guymon Extracts, Inc.

NEW NIKUNI PUMPS

Beginning in 2009, WWW will be offering several of the larger [Nikuni Pump](#) models in a direct coupled version. This option provides a lower cost solution in a smaller footprint making it easier for the pump to fit into tight upgrade locations. Call today to see why our customers continue to rave about the performance, reliability, and ease of operation of these pumps.

THANK YOU

As you may recall, Team H2O participated in the [US Challenge](#) which raised \$496,917 for [St. Jude Hospital](#). Thank you all again who contributed to this important cause.

Please do not hesitate to call us with any questions, feedback, or additional applications at **1-800-607-7873**. [Or visit us on the web by clicking here.](#)
